OF NEUROSURGICAL SOCIETIES

## Preliminary Programme

### EANS Basic Course in Cranial Surgery – Brno

*November 20th - 23rd 2018, Brno, Czech Republic*

#### **DAY 1**

##### **Tuesday 20.11:**

20:00-TBC Welcome reception

#### **DAY 2**

##### **Wednesday 21.11:**

- |                    |                                                                                             |          |
|--------------------|---------------------------------------------------------------------------------------------|----------|
| 09:00-09:30        | Lecture – Surgical anatomy - Surface and brain anatomy for pterional and frontal approaches | Simon    |
| 09:30-09:50        | Lecture – Surgical technique - Mayfield headrest, Microscopes & Midas Rex high-speeddrills  | Navratil |
| 09:50-10:10        | Lecture – Surgical approach - Pterional craniotomies                                        | Meling   |
| 10:10-13:00        | Dissection - Pterional right side & high-speed drills                                       | Meling   |
| <b>13:00-14:00</b> | <b>Lunch</b>                                                                                |          |
| 14:00-14:20        | Lecture – Surgical approach - Bifrontal craniotomies                                        | Smrcka   |
| 14:20-16:30        | Dissection - Bifrontal craniotomies                                                         | Smrcka   |
| 16:30-17:00        | Wrap-up                                                                                     |          |

THE EUROPEAN ASSOCIATION  
OF NEUROSURGICAL SOCIETIES

## **DAY 3**

### **Thursday 22.11:**

09:00-09:30	Lecture – Surgical anatomy - Osteology, Craniometric landmarks, Cortical surface anatomy	Simon
09:30-09:50	Lecture – Surgical technique – Neuronavigation	Navratil
09:50-10:10	Lecture – Surgical approach - Parietal craniotomies	Rocka
10:10-12:00	Dissection - Parietal craniotomies & neuronavigation systems	Rocka
<b>12:00-13:00</b>	<b>Lunch</b>	
13:00-13:30	Lecture – Surgical anatomy - Cortical landmarks on MRI, White matter tracts, Eloquence	Simon
13:30-13:45	Lecture – Surgical technique - Patient positioning	Priban
13:45-14:00	Lecture – Surgical approach – Hemicraniectomy	Velinov
14:00-14:15	Lecture – Surgical approach – Temporal	Fiedler
14:15-16:00	Dissection - Hemicraniectomy & Temporal approach left side	Velinov & Fiedler
16:00-16:30	Wrap-up	

## **DAY 4**

### **Friday 23.11:**

09:00-09:30	Lecture – Surgical anatomy - Posterior fossa / CP angle	Simon
09:30-09:50	Lecture – Surgical approach - Retrosigmoid craniotomies	Sames
09:50-10:10	Lecture – Surgical approach - Midline suboccipital	Smolanka
10:10-13:00	Dissection	Sames & Smolanka
<b>13:00-14:00</b>	<b>Lunch</b>	
14:00-16:00	Dissection - Cranial approaches, optional session	All faculty
16:00-16:30	Wrap-up
