

These are the activities of the Radiosurgery Section 2016/17:

- Organisation of the **Radiosurgery Section Meeting at the Annual Meeting EANS in Athens**, September 7th, 2016

Topics:

Hearing preservation in VS: Planned partial surgical resection followed by gamma knife radiosurgery M. Levivier (Switzerland)
Developments in stereotactic radiosurgery of malignant glioma: Another option B. Sandvei Skeie (Norway)
Radiosurgery of multiple micrometastases Rojas Villabona (United Kingdom)
Proton and heavy ion therapy : Fancy tool or necessary equipment for skull base tumours? D. Prasad (United States)
Combined approach: Surgery and radiosurgery in spine pathology K. Sallabanda (Spain)
Stereotactic radiosurgery for intracranial hemangiopericytomas: a multicenter study O. Cohen-Inbar (Israel)
Hypofractionated radiosurgery treatment for skull base tumors V. Buryk (Latvia)
Gamma knife management of skull base chordomas: Is it a choiceW. Musa (Egypt)

- Presence and Presentation at the **Comprehensive Clinical Neurosurgery Review, Krakow**, Poland, November 28th, 2016, (Presentation: Neurosurgical principles of radiosurgery) (Bodo Lippitz)
- **European Consensus Conference on AVM Treatment, Milan**, December 2nd, 2016 (Presentation: Staged radiosurgery in large AVMs: four different strategies: expectations and results) (Bodo Lippitz)
- **EANS Training Course- Vascular Seville**, Spain from Friday 1st September to Monday 4th September 2017 (Roberto Martinez)
- Organisation of the **Neuro-Radiosurgery Pre-conference Course at the Annual Meeting EANS in Venice**, October 1st, 2017 (Topic: cooperation between Microsurgery and Neuro-Radiosurgery)

Topics:

Spinal Radiosurgery: Combination with Partial Resection or Completion of Incomplete Resection, Kita Sallabanda, Madrid
Surgical Resection in Combination with Stereotactic Radiosurgery of Brain Metastases , Bodo Lippitz, Hamburg/London
Radiosurgery of Postoperative Remnants/Recurrences after Resection of Pituitary Adenoma, Piero Picozzi, Milan
Stereotactic Radiosurgery of AVM in the Time after ARUBA, Antonio Nicolato, Verona
Radiosurgery of Partially Resected or Unresectable Meningiomas, Enrico Motti, Lugo
Salvage Fractionated Radiosurgery of Postoperative Resection Cavity using Linac with Modern Techniques, Florian Würschmidt, Hamburg
Surgical Technique in a Prospective Combined Surgical/Radiosurgical Approach for Functional Preservation in Large Vestibular Schwannoma Pierre Hugues Roche, Marseille
Intended subtotal Resection of Large Vestibular Schwannoma in Preparation for Complementary Radiosurgery, Roy Daniel, Lausanne
Stereotactic Radiosurgery of Trigeminal Neuralgia in Comparison to MVD or Thermo-coagulation, Jean Regis, Marseille
Wait and See or Early Radiosurgical Treatment?, Marc Levivier, Lausanne
